HAZARDOUS DISCHARGE SITE REMEDIATION
PUBLIC ENTITY GRANT AGREEMENT

GRANT AGREEMENT (the "Agreement") made and entered into by and between the New Jersey Economic Development Authority, a body corporate and politic constituting an instrumentality of the State of New Jersey (the "Authority") and Township of West Orange, a New Jersey public entity (the "Grantee").

BACKGROUND STATEMENT

Pursuant to the provisions of Brownfields and Contaminated Site Remediation Act, N.J.S.A. 58:10B-1, et seq., amending the Industrial Site Recovery Act, P.L. 1993, c.139, as amended from time to time (the "Act"), and pursuant to the regulations promulgated by the Authority thereunder, N.J.A.C. 19:31-8.1, et seq. (the "Regulations"), the Authority, in concert with the New Jersey Department of Environmental Protection (the "Department" or "DEP"), administers a financing program under which it makes grants from monies in the Hazardous Discharge Site Remediation Fund (the "Fund") to public entities for real property: 1) on which they hold a tax sale certificate; 2) that they have acquired through foreclosure or other similar means; or 3) that they have acquired, or have passed a resolution or ordinance or other appropriate document to acquire, by voluntary conveyance for the purpose of redevelopment. The site control requirement does not apply to projects located in a brownfield development area or projects seeking approval for remedial action matching grants for recreation and conservation or for affordable housing. The grant monies are used to fund all or a portion of the costs of performing preliminary assessments, site investigations, remedial investigations and/or remedial actions on such real properties. Notwithstanding the above, no grant shall be awarded: unless the public entity has adopted by ordinance or resolution a comprehensive plan specifically for the development or redevelopment of contaminated or potentially contaminated real property in that municipality or can demonstrate to the Authority that a realistic opportunity exists that the subject real property will be developed or redeveloped within a three-year period from the completion of the remediation.

Grants may only be awarded for real property on which there has been a discharge or suspected discharge of a hazardous substance or hazardous waste.

By Resolution adopted on November 9, 2018 (the "Resolution"), the Authority approved the award of a grant to Grantee in the amount of up to \$129,177 (the "Grant") for the Remedial Investigation along with report preparation of the Selecto Flash Inc. (the "Project").
