

# ***Would you like to participate in a research study that helps people with MS? Here's how:***

You can meet with our researchers for a study visit consisting of approximately one hour to complete a few questionnaires and undergo a brief assessment of your thinking skills. You may also be asked to come back for two, brief 15 minute sessions.

## ***You are eligible, if you:***

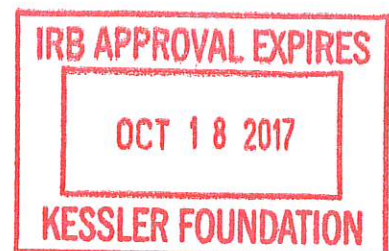

- ✓ Are between the ages of 18 to 74.
- ✓ Are medically healthy (Have no medical or neurological illness that can affect thinking skills).
- ✓ Are not prescribed any medications that can affect thinking skills.
- ✓ Have never been diagnosed with a learning disability.
- ✓ Have no present or past difficulties with alcohol or drugs.
- ✓ Have no present or past diagnosis of a significant mental health disorder.

## ***You will be compensated for your participation.***
