WATER ADVISORY MAY 8, 2019

Please find below the notice from New Jersey American Water Company informing West Orange residents of the work they will be doing and the possible discoloration of water.

The regional water supplier, from whom New Jersey American Water purchases water supplied to West Orange, will begin to conduct capital repairs next week. This will cause your water supply to be switched to another approved source. As a result, customers in your area may experience mild discoloration of their drinking water during the next week. This discoloration does not pose a health concern. Please be assured that we are continuously monitoring your drinking water supply to ensure we meet EPA and New Jersey water quality guidelines. We appreciate your patience and apologize for any inconvenience. In the event of an emergency, or if you have a health condition that could be affected by a change in water supply, please feel free to contact New Jersey American Water Company at 800-272-1325.
