

Requirements for Whole House Generators

PLEASE NOTE: If resident lives within a complex, a letter of approval from “Association” is required before any application can be processed.

ELECTRIC GENERATORS

- 1 copy of property survey showing location of the generator
- 2 copies of Manufacturer’s Specifications
- 2 copies of Transfer Switch Specifications
- 2 copies of Load Calculations
- 2 copies of a Wiring Diagram
- Type of wiring and sizes
- 2 copies of Specifications of Load Manage Systems
 - New Jersey License Electrician shall sign and seal plans
 - Must comply with article 702 of National Electric Code

NATURAL GAS GENERATORS

Plumbing/Mechanical Items

- Submit a gas appliance inquiry form to utility supplier (PSEG). This is required per the PSEG customer regulations.
- Submit two (2) clear, neat & legible gas piping diagrams.

Gas pipe diagrams shall include all of the following:

- The length of the longest gas pipe run on the premises, regardless of what appliance is connected to it.
- The BTU input load at each gas outlet
- Pipe sized clearly marked on the diagram
- The gas pipe material. If installing CSST tubing, submit a copy of certification from the manufacturer and include Bonding on the Electrical technical form.
- (Gas piping is sized based on the Longest or Most Remote Outlet method per the NJ IRC, NJ IFGC, & PSEG regulations, and also a maximum pressure drop across the system of 0.3 inches/water column).

Fire Items

- A fire permit is required.
 - For Residential Code purposes, location shall comply with requirements of NFPA 37, 2002.

Instructions for the PSE&G Residential Application for Gas Service

The Residential Application Form must be filled out completely in order to avoid delays in providing service.

Residential gas load data sheet to be used for new service / changes to gas load for Single Family or Multi Family
(Up To Three Residential Units & House Meter).

Please use the Commercial form for buildings having 4 or more Residential Units.

When completing an application for generators and/or tankless water heaters,
specification sheets are essential, especially when fuel pressure requires a minimum of 7" water column or higher.
Please specify make, model of equipment, and pressure requirement.

Site plans are required for gas layout to begin when no foundation at the site.
Plans must be full size and to scale; include footprint of building and show at least one cross street.
Site plans may be mailed to the appropriate address below.

**For Construction Inquiry purposes,
PSE&G service territory is divided into Northern & Southern Counties.**

*Note: Emails below are for completed load data sheets only.
